

*The Measure of Quality*

**Apex International**, the World's Largest Anilox Manufacturer, has a new and exciting position within its production facility in Donora, PA. We are a growing company with many exciting opportunities. This position is eligible for a performance review and wage increase after the first 90 days and 180 days and will be reviewed annually thereafter.

## **Machine Operator**

The positions of Grinding and Blasting are one of the most critical parts of our production process. At Apex, we pride ourselves on delivering high-quality products to our customers every, single time. To ensure this success, the production team must possess certain qualifications, skills, and attitude. This position is a rotating shift of days, evenings and overnight.

### **Essential Functions & Key Responsibilities:**

- Load and unload anilox rollers into grinding/blasting/plasma machines in a safe manner
- Operate and use overhead crane safely
- Monitor machines for proper functionality
- Operate the various machines to prepare anilox rolls for laser engraving
- Responsible for daily checklist completion of tasks such as refilling materials, dressing machines and other duties as assigned

### **Requirements for the Position:**

- Push/transport anilox rolls from one building to another in a cart; roll weight can be more than 2000 lbs.
- Must be able to use micrometers for measuring diameters of anilox rollers
- Must be able to read a tape measure (in metric)
- Must be able to work with tight tolerances as tight as .0005

**Apex North America is an Equal Opportunity Employer.**

**Job Type:** Full Time

**Salary:** \$12.75/hour

### **Experience:**

- Machine Operator: 1 years (preferred)
- Manufacturing: 2 years (preferred)

**Shifts:**

- Morning (required)
- Evening (required)
- Graveyard (required)
